

John Garner III

Junior Software Engineer

CAREER OBJECTIVE

Recent graduate seeking to use my development experience in an entry-level position. Possess more than 1 year of hands-on experience building and maintaining application on the Windows Operating System.

PERSONAL/SCHOOL PROJECTS

GTC CAPSTONE

- <https://github.com/TheJavaCoder/Capstone>
- Used C# to develop an idler game for iOS to function as an idler game like Melvor Idle.
- Worked with the development team to implement parts of the GUI in WPF
- Leveraged my knowledge of Java and Python to write interfaces to manage backup log data
- Fixed bugs in existing parts of the code

STEVE THE DISCORD BOT

- <https://github.com/JohnGarnerIII/Steve-the-Discord-Bot>
- Implemented a fully functional Discord Bot named Steve.
- Used Python and the Discord API to implement ways to post images, play text games and remove users.
- Maintained and regularly updated codebase on GitHub.
