## WORK EXPERIENCE

---

### QuickVisit Urgent Care

July 2021 – Dec 2021

*Information Technology Specialist*

*Carthage, TX*

- Successfully managed and resolved daily technical issues in a busy healthcare clinic, including hardware, software, and network-related problems for both staff and patients.
- Collaborated with clinic staff to develop and implement a new electronic medical records (EMR) system, resulting in improved patient care and increased efficiency.
- Trained new hires and existing staff on clinic-specific software and equipment, ensuring a smooth onboarding process and reducing training time.

### Nephron Pharmaceuticals

August 2015 – July 2016

*Information Technology Specialist*

*Cayce, SC*

- Led the troubleshooting and resolution of production line issues, minimizing downtime and maximizing productivity.

## PROJECTS

---

### Gwinnett Technical College Capstone

*C#, TSQL, WPF, Visual Studio*

- Designed and developed an engaging and addictive idle game using C# and dotnet core, with gameplay mechanics similar to popular titles like Melvor Idle.
- Collaborated with a team of developers to create a fully functional game, from the early design stages to final testing and deployment.

## EDUCATION

---

### Georgia State University

*Bachelors of Science in Computer Science*

**August, 2025**

*Atlanta, GA*

### Gwinnett Technical College

*Associates in Computer Programming*

**May, 2021**

*Alpharetta, GA*
